

# Cosmetics and Toiletries Vol. 92, 1977

## Subject Index

Prepared by Hilda Feinberg, PhD

- Abinco gels, September, 39  
Acids, long chain, influence on stability and consistency of creams, February, 21  
Adamantane derivatives, as preservatives, August, 34  
Alcohols  
    antibacterial activity, May, 59; August, 32  
    fungicidal activity, May, 60  
    long chain, influence on stability and consistency of creams, February, 21  
Alkali metal hydrosulfites, as decolorants, February, 36  
Alkylamido betaine, as foam stabilizer, November, 23  
Alkyl betaine, as foam stabilizer, November, 21  
Alkyl polyethoxydimethyl amine oxide, as foam stabilizer, November, 22  
Allergens, January, 36; August, 37  
Ames Test, reliability, May, 44  
Ammonium persulfate, patch test for, April, 55  
Amphiphiles, fatty, February, 27  
Antiandrogens, effects on sebaceous gland activity, February, 57  
Antimicrobial compounds, *see* Preservatives  
Antiperspirants  
    efficacy of, April, 38  
    sticks, July, 66  
Asbestos, in talc, December, 45  
  
Bacterial dental plaque, September, 30  
Benzoates, as preservatives, August, 34  
Benzoic acids, parahydroxy, esters, as preservatives, August, 34  
Bioautographic visualization, for detection of antimicrobials, March, 73  
Blemish sticks, July, 39  
Blushers, sticks, July, 49  
5-Bromo-5-nitro-1,3-dioxane, *see* Bronidox  
2-Bromo-2-nitropropan-1,3-diol, *see* Bronopol  
Bronidox, as preservative, March, 89  
Bronopol, as preservative, March, 87  
Bronzers, sticks, July, 49  
Bubble bath, foam stability, November, 21  
Burns, healing time, November, 25  
Butter oil, October, 60  
  
Calcium saccharate, April, 57, 58  
Calcium soaps, April, 57  
*Candida albicans*, September, 44  
Cellulose polymer, cationic, June, 39  
    protection of skin by, June, 39  
    to reduce skin irritation, June, 39  
Chemical maximization, October, 53  
Chemisorption, of polypeptides, by hair, August, 47, 49  
Chlorhexidine, March, 72; April, 38  
    as antimicrobial agent, April, 38  
Claim substantiation, December, 52  
*Clostridium perfringens*, September, 42  
*Clostridium tetani*, September, 42  
Coco-condensate, December, 30, 36  
  
Collagen, December, 32  
Color additives  
    microwave sanitization, March, 57  
    permitted in U.S., June, 28, 32  
    regulations, June, 26  
Comb, "chemical," August, 35  
Contact hypersensitivity, October, 53  
Cosmetic companies, small, Federal regulatory problems, October, 65  
Cosmetic product experience, October, 44  
Cosmetic science, 1976 literature survey, April, 31  
Cover sticks, July, 48  
Creams, use of mixed emulsifiers in, February, 21  
Crodesta-L, as preservative, March, 94  
  
Deodorants, stick, July, 64, 66, 73  
Deodorizing agents, metal ricinoleates as, May, 45  
Dental plaque, September, 30  
Depilatory creams, skin irritation from, June, 40  
Dermal toxicity, cosmetics, December, 48  
Detergents, germicidal, March, 47  
Diacyl-glycerol-phosphorylcholine, *see* Phosphatidylcholine  
Dialysis, to determine effects of preservatives, March, 33  
Dowicil 200, as preservative, March, 91  
  
EDTA, in bubble bath preparations, November, 23  
Education, cosmetic science, June, 47  
Electrical impedance, and skin hydration, February, 73  
Emerwax 1253, April, 17  
Emollients, influence on skin lipids, June, 54  
Employees, departing, and trade secrets, August, 24  
Emulsifiers, mixed, February, 21  
Emulsion inversion point, for evaluating required HLB, October, 32  
Emulsions  
    double (W/O/W), May, 10  
    inversion point, October, 32  
    oil-in-water, chemical preservation, November, 33  
    stability, April, 38  
    water-in-oil, stabilization, April, 57  
Eosine dyes, July, 30, 60  
Equipment, sanitizing agent for, March, 99  
*Escherichia coli*, March, 82, 98; September, 44  
European Economic Community, Directive, microbiological aspects, September, 42  
Eye irritation tests, May, 42  
    for shampoos, April, 50  
Eyebrow pencils, July, 47, 50  
Eyeshadows, stick, July, 48  
  
Fatty acids, essential, and the skin, February, 59  
Flutamide, effect on sebaceous gland activity, February, 57  
Foams  
    stabilization, November, 21, 22  
    testing, in bubble baths, November, 21, 22

- Food and Drug Administration, Division of Cosmetics Technology, December, 42  
 regulatory activities, December, 42  
 OTC Drug Review Program, effect on cosmetic industry, December, 49
- Formaldehyde  
 analysis, March, 61  
 as preservative, August, 32
- Foundations, stick, July, 48
- Fungi  
 effect of magnesium carbonate on, August, 43  
 effect of talcum powder on, August, 41
- Gas-liquid chromatography, March, 59
- Gelling agents, carbohydrate-based, September, 39
- Gel network theory, February, 22
- Gels  
 BWC surfactants in, July, 77  
 Documentary, July, 25-86  
 formulations, July, 25  
 polyethylene, July, 25  
 Veegum in, July, 81
- Germall 115, as preservative, March, 88
- Ginseng, May, 50
- Gleamers, stick, July, 49
- Glutaraldehyde  
 as preservative, March, 95  
 as sanitizing agent for equipment, March, 99
- Glycerol, application to corneum, May, 36
- Glycyrrhizin, July, 18
- Guinea pig maximization test, October, 56
- Hair, affinity for protein derivatives, August, 45
- Hair conditioning, "chemical" comb applicator, August, 35
- Hair damage, April, 47; August, 46  
 treatment with protein derivatives, August, 46
- Hair dyes  
 mutagenic ingredients in, December, 48  
 penetration, April, 50  
 safety, December, 48
- Herbs  
 use in cosmetics and toiletries, January, 19  
 principle constituents of, January, 20, 21
- Hexadecyl pyrrolidone carboxylate, April, 38
- HLB of emulsions, October, 32, 42
- Humectants, moisturizing skin with, May, 34, 36
- Hydroxyproline, assay, December, 32
- Hypersensitivity, January, 34
- Imidazole urea compounds, as preservatives, August, 34
- Impedance of skin, measurement, February, 73
- Inhalation toxicology, December, 47
- Instrumental analyses, September, 63
- International Cosmetic Regulations, 7th Conference, November, 52
- International Federation of Societies of Cosmetic Chemists, Brussels, September, 1977, Report, December, 37
- Joboba oil  
 toxicity studies, September, 53  
 comparison with whale oil, September, 61  
 hardness test of wax formulations, September, 62
- Keratinous fibers, fiber-reactive, decolorization of, February, 36
- Kohl stick, July, 47
- Landsteiner-Draize Test, October, 53, 56
- LD<sub>50</sub> tests, May, 41
- Linoleic acid, role in skin, February, 60
- Linoleyl phosphatidylcholine, December, 19
- Lip glosses, July, 28
- Lipids, December, 19
- Lipsticks, July, 59, 60  
 processing, February, 30  
 molding, February, 33
- Lotions, mixed emulsions in, February 21
- Lyso-phosphatidylcholine, December, 19
- Maguire Test, October, 56
- Magnesium aluminum silicate, colloidal, July, 81  
 in gels and sticks, July, 81
- Magnesium carbonate  
 effect on fungi, August, 43  
 effect on microorganisms, August, 41
- Makeup sticks, July, 47, 67
- Manufacturers, small, survival of, October, 65
- Marketing of products, December, 25
- Mascara, contamination, December, 48
- Mercurials, organic, as preservatives, August, 34
- Microbial Limit Guidelines, CTFA, March, 79
- Microcrystalline wax, April, 17
- Microencapsulation, oils in lipsticks, July, 60
- Microorganisms  
 effect of magnesium carbonate on, August, 41  
 effect of talcum powder on, August, 41
- Microorganisms, skin, March, 38
- Microwave sterilization, March, 57
- Mineral oil, formulating with, January, 43
- Minimum inhibitory concentrations, November, 33, 34
- Moisturization, skin, April, 47; May, 34
- Mouth, artificial, for studying dental plaque, September, 30
- Mutagenic ingredients, December, 48
- Nail enamels  
 from chips, April, 63  
 pigments in, April, 63
- Nails, hardness, April, 48
- "Natural," meaning of, June, 36
- Natural moisturizing factor, May, 34
- New product development, October, 65; December, 25  
 assessment model, November, 45
- Nitrocellulose chips, April, 65
- Nitrosamines, June, 6; December, 49  
 cosmetics contamination with, November, 28, 30  
 identification, November, 28
- N-Nitrosodiethanolamine, November, 28; December, 49  
 carcinogenic potency, November, 28  
 determination in cosmetics, November, 28
- Occlusive films, skin moisturizing with, May, 30
- Oils, microencapsulated, in lipsticks, July, 60
- "Organic," meaning of, June, 36
- Organic compounds, sorption by skin, April, 61
- Organomercurials, determination, March, 70
- OTC Drug Review Program, effect on cosmetic industry, December, 49
- Parahydroxybenzoic acid esters, as preservatives, August, 34
- Patch tests, May, 41; August, 38
- Perfumes, sensitization, April, 55
- Petrolatum, formulating with, January, 43
- Pharmacological terms, glossary, January, 25
- Phase inversion temperature, oil-in-water emulsions, October, 32
- Phenols, determination, March, 62

- Phosphatidylcholine, December, 19  
 Phosphatidylethanolamine, December, 19  
 Phospholipids in cosmetics, December, 19, 20  
 Pigmentation, human, February, 64  
 Polyethylene, as gellant, July, 25  
 Polypeptides  
   chemisorption by hair, August, 49  
   effect on hair, August, 45, 47  
   molecular weight, 47  
 Preservation  
   activity, factors affecting, March, 22  
   of creams, March, 35  
   of emulsified and solubilized disperse systems, November, 33  
   legal aspects, March, 75  
   of oil-in-water emulsions, November, 33  
   of powders, March, 33  
   partition effects, March, 19, 26  
   pH effects, March, 16, 24  
   strategies for, March, 22  
   testing for efficacy, August, 30  
 Preservative-surfactant interaction, November, 36  
 Preservatives, August, 32  
   analysis of, March, 59  
   antimicrobial activity, March, 18  
   5-bromo-5-nitro-1,3-dioxane, March, 89  
   2-bromo-2-nitropropan-1,3-diol, March, 87  
   choice of, March, 15  
   classification, March, 60  
   compatibility, March, 18  
   Crodesta-L, March, 94  
   detection of, bioautographic visualization, March, 73  
   Documentary, March, 15-100  
   Dowicil 200, March, 91  
   frequency of use in cosmetics, March, 85  
   functions of, March, 15  
   Germall 115, March, 88  
   glutaraldehyde, March, 95, 99  
   influence of formulation on activity of, March, 33  
   interaction with nonionic surfactants, March, 33, 34, 36  
   listing of 125 compounds, March, 85, 86  
   mixtures of, March, 52  
   pH, March, 18  
   profiles of (table), March, 18  
   solubility, March, 18  
   synergism, March, 52  
   systems, tailoring of, March, 15  
 Primary irritation, April, 55  
   test for, May, 41  
 Product development, *see* New product development  
 Protein fatty acid condensates, August, 46  
 Proteins  
   in cosmetics, December, 29  
   derivatives  
     affinity of hair for, August, 45  
     effect on hair, August, 46  
   hydrolysates, December, 29  
   penetration into hair, December, 32  
   penetration into skin, December, 32  
*Pseudomonas aeruginosa*, March, 16, 52, 80, 82, 87, 88, 90, 91, 96, 97, 99; August, 41; September, 44  
 Quaternaries, as preservatives, August, 34  
 Regulatory activities, Food and Drug Administration, December, 42  
 Research needs, cosmetics, January, 34  
 Ricinoleates, metal, as deodorizing agents, May, 45  
 Safety testing, May, 41  
 Salicylic acid, effect on skin, April, 36  
 Scalp, lipids, effect of shampoos on, June, 56  
 Schotten-Bauman Reaction, December, 36  
 Sebaceous gland activity, effect of flutamide on, February, 57  
 Sensitizers, identification and detection, August, 37  
*Serratia marcescens*, March, 96  
 Shampoos  
   eye irritation tests, April, 50  
   skin irritation from, June, 40  
 Shave sticks, July, 54  
 Shaving, physics and chemistry of, April, 38  
 Skin  
   biology and biochemistry of, April, 40  
   dispersal of microorganisms from, March, 38  
   inhibition of growth of microorganisms on, March, 47  
   residual antimicrobial activity, March, 47  
 Skin absorption, organic compounds, April, 61  
 Skin cleansers, antimicrobial, March, 47  
 Skin color, cosmetic and pharmacological aspects, February, 64  
 Skin, dry, April, 46  
 Skin hydration, and electrical impedance, February, 73  
 Skin impedance, and moisturization, February, 77  
 Skin irritation tests, May, 41  
 Skin moisturization, April, 47; May, 34  
 Skin penetration, April, 44  
 Soaps  
   germicidal, March, 47  
   skin irritation from, June, 42  
   stabilization by antioxidants, October, 22  
 Society of Cosmetic Chemist  
   1977 Annual Seminar, Report, July, 87  
   Annual Scientific Meeting, December, 1976, Report, February, 44  
   Midwest Regional Symposium, 3rd, Report, December, 40  
 Sodium ethylenediamine tetraacetate, in bubble bath, November, 21  
 Sodium lactate, in skin creams, May, 36  
 Sodium lauryl ether sulfate, in bubble bath, November, 21  
 Sodium pyrrolidone carboxylate, as humectant, May, 36  
 Sodium stearate, in cosmetic sticks, July, 64, 73  
 Solulan PB-5, in shampoos, May, 24  
 Sorbates, as preservatives, August, 34  
 SR preparation, for wound healing, November, 25  
 Stability of cosmetics, April, 38  
*Staphylococcus aureus*, March, 43, 44, 52, 73, 80, 82, 96, 99; September, 42, 44  
*Staphylococcus epidermidis*, March, 47, 79  
 Stick cosmetics  
   anatomy, July, 52  
   Documentary, July, 28-86  
   makeup, July, 47  
   patents, 1969-1977, July, 54  
   powder, dry pressed, July, 63  
   sodium stearate in, July, 73  
   surfactants in, July, 77  
   Veegum in, July, 77  
   water-in-oil emulsions, July, 62, 69  
 Stratum corneum, April, 40, 43  
   water content, May, 34  
*Streptococcus mutans*, September, 32  
 Sugar esters, in cosmetic sticks, July, 65  
 Surface active agents, *see* Surfactants  
 Surfactant/fatty amphiphile emulsifiers, February, 21  
 Surfactants  
   in gel cosmetics, July, 77

influence on skin lipids, June, 54  
 nonionic, interaction with preservatives, November, 33, 34, 36  
 review, April, 31  
 Syneresis, July, 51  
 Synergism, *in vitro*, in mixtures of preservatives, March, 52  
 Talc, asbestos in, December, 45  
 Talcum powder  
   effect on fungi, August, 41  
   effect on microorganisms, August, 41  
 Teeth, demineralization, September, 32  
 Thin-layer chromatography, May, 59, 73  
 Toxic Substances Control Act (TSCA), December, 50  
 Toxicity, cosmetic products, April, 49

of chemicals, April, 49  
 dermal, cosmetics, December, 48  
 Trade secrets, August, 24  
 Traumatic maximization, October, 53

Urea, effect on skin, April, 36  
 Urocanic acid, in lipstick, April, 10  
 UV light screens, efficacy, April, 46  
 UV radiation, on skin, April, 45

Vanillic acid esters, as preservatives, August, 34  
 Veegum, in sticks and gels, July, 81

Warburg apparatus, November, 25  
 Wound healing, November, 25

## Author Index

Araya, S., September, 30

Baker, C., July, 47  
 Bandelin, F. J., May, 59  
 Barker, G., January, 43; July, 73  
 Beh, H. H., November, 21  
 Berdick, M., June, 26
